Summary

I am an experienced consultant, developer, administrator and analyst seeking contracts and/or consulting engagements and/or employment. I have experience on many computing platforms in several industries which make me a valuable asset to any team.

Technical Skills

Consulting, analysis and development in several languages on IBM Mainframe, IBM AS/400, UNIX/Linux, and Microsoft platforms.

Design and development of web enabled applications and web sites utilizing HTML, XHTML, CSS, PHP, JavaScript, XML, SSL Security Certificates, Databases and supporting technologies/systems for the Internet on Linux/Apache servers. Web site hosting/administration.

Drupal CMS based websites. Installation, implementation, customization, theming and on-going support.

Analysis and customization of applications packages in the manufacturing, banking and insurance industries.

Analysis, design and administration of databases on the AS/400, UNIX/Linux and Microsoft platforms. DB2, Oracle, MySQL, and MSSQL.

Network design, installation and support for Wide Area (WAN) and Local Area (LAN) networks.

Experience

June 1987 to current

Simply Digital Technologies Fort Worth Texas
Consultant, Analyst, Administrator, Developer, Technician

Consulting and contract services on IBM Mainframe, IBM AS/400, UNIX/AIX/Linux and Microsoft servers. Contract networking services for WAN and LAN networks.

Internet Service Provider (ISP) since 1998. Planned and built a small datacenter providing dial-up Internet Access, dedicated Internet Access, Web Hosting and Web Site Design/Development services.

Served several Fortune 500 and Fortune 1000 companies.

May 1989 to Feb. 1991

Monarch Tile Mfg., Inc. Florence Alabama
Senior Programmer/Analyst

All systems and applications analysis and programming on IBM AS/400. Design, develop and implement a custom communications package utilizing TCP/IP allowing the AS/400 to retrieve and share inventory and sales information with Unisys UNIX systems at 27 Retail Warehouses across the US. Installation, management and administration of all servers, PC's, LAN's, WAN's and network equipment at the Corporate Headquarters and Retail Warehouses.

1980 to 1986	**Professional DataSolutions Inc.** San Angelo Texas *Senior Programmer*

Re-design and re-write existing Convenience Store Operations and Accounting software package. Utilized RM-COBOL to provide cross-platform execution on DEC-VAX, TI Business Systems 300-900, NCR UNIX systems, SCO UNIX and MS-DOS. Package included a communications interface that allowed all C-Store equipment (gas pumps, cash registers, etc.) to feed the accounting package.

August 1974 to *August 1978*	**United States Marine Corps** *Aviation Electronics Technician, Aircraft Crewchief*

Maintenance, repair and Quality Assurance Inspection of all electrical, communications and navigations systems on Boeing-Vertol CH-46 and Bell UH-1 Helicopters. Flight Crewchief on the CH-46. Avionics test flights on the CH-46 and UH-1.

Achieved rank of E-5, meritoriously at two years and four months service time.
Aircraft Quality Assurance Inspector
Secret Security Clearance.

Education

1970 to 1974	**Roscoe High School,** Roscoe, Texas *Graduate*

Sept. 1974 to *Nov. 1974*	**Naval Aviation Electronics A School,** NAS Millington, Tennessee *Component and board circuitry to complete aircraft electrical systems*

Graduated 4th in class with meritorious promotion to E-3.

Sept. 1978 to *Dec. 1983*	**Angelo State University,** San Angelo, Texas *B.S. Computer Science w/Business Management Degree Plan* *Degree not complete*

Maintained full time employment while attending school.

Feb. 1990 to *Feb. 1991*	**IBM Training** *OEM Training on systems and applications software development/administration/support*

AS/400 On-Line Education, AS/400 Implementation, AS/400 Systems Admin and Control, AS/400 CL Programming, AS/400 Relational DB Design and Coding, AS/400 Structure, Tailoring and Tuning, AS/400 Performance.
