

Planned node system improvements for Drupal 4.7

Improved node revisions
(Gerhard is working on this, no progress recently, looking for more testers)

Improved node form
(Chris was working on mockups, Thox is working on collapsible page elements)

Content construction kit
(Jonathan is working on this)

Workflow and actions
(John is working on this, no progress recently)

E-mail subscriptions module
(Robert is working on this, no progress recently)

Improved node tracking
(Chris is working on mockups, no progress recently)
